WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

re: Lapse of patent enforcement #6450655

Gentlemen,

J.M. Canty, with this submittal, applies for reinstatement of US Patent 6450655. The failure to pay the required maintenance fee was unavoidable per the following explanation:

The original filing was performed by James Ralabate whose firm is since dissolved. When this status came to be we had all our files transferred to Darby and Darby based in New York City (also since dissolved). We received notification of expiration from the patent office in late October 2010 and checked the file transfer from Darby and Darby to our new attorney and found this file was not a part of that folder. As the firm dissolved quickly it was impossible to determine the origination of this error. Canty has taken over fee payment on all our in force patents in order to avoid this possibility in the future.

Sincerely,

Thomas M Canty, P.E.
